

	Desired outcome(s):	Measurable goals	Actions
4	<i>Flood management & protection</i> Reviewed & updated after board meeting September 2017		
	<p><i>Agricultural lands in the South Lynden WID are protected from flooding due to surface water runoff at critical times in the growing season.</i></p>	<p><u>Goal statement (a):</u> <i>Regular, scheduled maintenance is completed for flood protection infrastructure in the S. Lynden WID area.</i></p> <p><u>Progress could be measured by:</u> <i>Number of projects, repairs or actions that are completed in a year, compared to the number reported as needing attention.</i></p> <hr style="border-top: 1px dashed black;"/> <p><u>Goal statement (b):</u> <i>Ad hoc or emergency repairs to flood protection infrastructure are completed in a timely manner, in collaboration with Whatcom County.</i></p> <p><u>Progress could be measured by:</u> <i>Number of ad hoc emergency repairs that are completed in a year, compared to the number reported as needing attention.</i></p>	<p><u>Recently completed or ongoing:</u></p> <ul style="list-style-type: none"> <i>i. Identified flood management and dike maintenance priority actions as part of Ag-Watershed Characterization and Mapping work session in January 2016 (see agricultural enhancement tables in Appendix B, also Table 4 and map in Figure 8 of this Preliminary Plan)</i> <p><u>Priority actions for management plan:</u></p> <ul style="list-style-type: none"> <i>ii. Interact with County Flood Mgt. regarding gravel removal & funding concerns (9/2017 meeting)</i> <i>iii. Review and update priority actions identified at the January 2016 work session (see list in Table 4 and map in Figure 8 of this Preliminary Plan, which include several possible actions to maintain flood infrastructure in specific locations within the South Lynden WID area.)</i> <i>iv. Consider requesting study on the costs and benefits of placing a seasonal floodgate on Scott Ditch to address the spring flooding issues (discussed at Dec 2015 meeting).</i> <i>v. Consider coordinating with FCZD on levee maintenance particularly the Hampton levee (discussed at April 2016 meeting)</i> <hr style="border-top: 1px dashed black;"/> <p><u>Recently completed or ongoing:</u></p> <p><u>Priority actions for management plan:</u></p>
